Subject Line: Peek behind the curtain...
From Teeka Tiwari

Dear Tycoon Report reader,

You know, as well as I do, that financial literacy has never been more important. Right now, being armed with the financial education necessary to manage your wealth is critical.

With the betrayals of Wall Street, your broker and banker (and the resulting strain on your wealth and retirement)...whom can you really trust?

Unlike older generations you can't "assume" retirement is an automatic. Unlike older generations you can't "assume" that you can trust anyone. Unlike older generations you can't "assume" work related income alone, will cover it all.

Claiming your financial independence and your spoils of the "American Dream" has never been more difficult.

But IFII wants to help. Through the Tycoon Report, and our educational courses we want to help provide you the education you need to protect and grow your wealth.

In the coming months we will take steps to improve ourselves. Making changes that work toward your goals, reflect the changing market, and your role in it.

We'll talk more in the coming months. But today, I have a gift for you.

Well, truthfully it's really my friend Teeka Tiwari—star Hedge Fund manager and the best investor I know—who has a gift for you.

Gifts we hope will help kick start your financial education, and reward you for your continued readership of the Tycoon Report.

Teeka will tell you more about this great learning opportunity...

**Get A FREE Peak Behind The Curtain With Teeka Tiwari
Today...**

Big T Here, Teeka Tiwari.

As the XXX of the Tycoon Report, it's my job to let you know when something big is coming.

Today I've got some great news for you. Big news you are really going to like.

Starting today, you can get access to **the first four lessons of *ETF Master Trader 3.0* absolutely FREE.**

Immediately after you sign up you'll receive an email with all the vital details. Including how to create your temporary 30-day membership log in information.

Once you log in, you'll be able to watch the *ETF Master Trader* intro videos. Which will introduce you to the course, my methodology, and ETFs.

Plus—and this is a biggie—when you sign up today you'll also receive FREE access to our complete suite of *ETF Master Trader* proprietary trading tools.

You'll receive your first lesson when you sign up, then a new lesson every week after. Giving you 30 days to study these four classes, and sample everything else.

And again...you receive all of this FREE when you sign up today.

Simply click here to enter your email address to receive access to your first lesson—and intro videos—starting right now.

Topic: Giving away first four lessons of ETF Master Trader
Subject Line: What made me a Master Trader...
From Teeka Tiwari

Dear Tycoon Report reader,

Dylan Jovine here.

For years, at IFII, we've been trying to show you how committed we are to preserving your retirement and protecting your financial future.

Creating courses, articles, webinars, reports, and mastery classes all geared to preserving an ideal that we truly believe...

That financial independence should be a right for all, not just a select few.

It's very appropriate, that on the weekend we celebrate the birth of our nation...I find myself writing you this email. Talking about independence (even if its financial).

In the coming months IFII will change for the better. We are committing to changes now to empower you to achieve financial independence for yourself.

Many of these changes will be discussed in the coming months.

But today, I wanted to start the ball rolling by providing you more access to the educational materials you need, absolutely FREE.

My good friend Teeka will tell you more about this opportunity, and how his own experiences shaped his decision today...and much of what he's done for IFII.

But I'll let Teeka tell you about it...

IF I Can Do It, Anyone Can...

When you joined the Tycoon Report you raised your hand wanting to learn more. To get the education you need to rip profits out of the market at will.

Which I'm proud to help you with, as someone once did for me.

The fact is like you, I turned to investing to change the course of my financial future. The odds were firmly stacked against me but I over came them—as you can too.

I came to the US from England at 16 with only \$150 in my pocket. Working as a dockworker, busboy and store clerk to make ends meat.

Two years after arriving, Lehman Brothers hired me. By 20 I became the youngest VP in company history.

But all the early success evaporated as the market took a nasty turn. Again, I was nearly back to square one.

I wasn't deterred though. Instead I was more determined than ever, now knowing that it all was possible—that I could truly build wealth for myself as an investor.

From failure came hard work. I sought out help from potential mentors, investing books and every institutional resource I could to build a more consistent winning system.

Like you, I sought out help with my investing education.

By 23, I cracked that nut. Made my millions back and was able to start my own hedge fund at 27.

As the XXX editor of the Tycoon Report it's now my pleasure to help you with your financial education.

In the coming years, being able to generate income—above and beyond what you already make—will be vital. It will be the one skill you will need.

Signing up to receive the Tycoon Report was a great first step. But as a valued member of the Tycoon Report community, it's my pleasure to give you more.

Today, I would like to offer you the chance to get the first four classes of my **ETF Master Trader 3.0 course, absolutely FREE.**

Just enter your email address **on the next page to get instant access.** That's it.

When you sign up today, you'll get an email with information on accessing the ETF Master Trader classes. Included with these lessons are three intro videos to get you ready to start your classes.

Plus—and this is really cool—for 30 days you have complete and unfiltered access to our proprietary trading tools.

You'll receive your first lesson today, and then one new lesson a week for the next 30 days. Giving you 30 days to study these four classes, and test the tools.

And again...you receive all of this FREE for 30 days when you sign up today.

Simply click here to enter your email address to receive access to your first lesson—and intro videos—starting right now.

Let the game come to you,

Dear Tycoon Report reader,

Are you ready to take the next step in your investing education, and begin learning the skills necessary to generate your own wealth?

Well my friend, if so—or even if you are unsure—today is your lucky day.

For the first time ever, we are giving away the first four lessons of ETF Master Trader 3.0. No charges. No credit card information. No commitment.

Just enter your email, and receive the first four lessons free.

Then you have 30 days—receiving one lesson a week—to sample ETF Master Trader. You'll receive three introductory videos, quizzes after each lessons, trading tools (such as the position sizing tool) and access to my weekly member webinars.

It's all yours FREE for thirty days as a Tycoon Report member.

I hope you are really excited my friend. In these classes you will learn the power of ETFs, and sector rotation. But most importantly, in these free classes you will get a taste of the investing method I've developed over my 20+-year career...that's made my hedge fund clients millions.

Starting today, you get the first four lessons of this course—over four hours of lessons—absolutely free.

So what are you waiting for, sign up already!!!

Topic: Giving away first four lessons of ETF Master Trader
Subject Line: What does independence mean to you...?
From Teeka Tiwari

Dear Tycoon Report reader,

On the lead up to July fourth weekend I wanted to ask you a simple question?

What does independence mean to you?

Before you answer, I wanted to share a story with you, about a friend of mine, named Barry C...

My name is Barry C. I worked as an electrician for 25 years, with Local 3 in New York. 15 years ago I got hurt on the job. I had to go for 2 spinal surgeries, which destroyed my life.

I was making \$100,000 - \$150,000/year, but all of a sudden I had to fight to get Social Security just to stay alive. That led to major depression.

My son was just born. My daughter was four. Money was tight. My bills were mounting ... I was late on house payments.

The only other alternative I had was to try to do something with my brain. My wife said, "You're a smart guy, why not try to invest?"

I started off with \$100,000 but following these internet gurus took me all the way down to \$10,000. Everything we'd worked up to was wiped away in a year and half.

Talk about despair ...

I heard about Teeka. I read about how he had the world at his fingertips, only to go broke and then ultimately come back. I saw a lot of common ground between us, so I gave *ETF Master Trader* a shot.

That's how I made most of my money back. Once I started educating myself and taking the course, it took me six months to a year to get back most of the money that I lost.

One of the best part of the courses was the way Teeka was teaching. He doesn't talk down to you like you're nobody. He talks to you on the same level. He teaches you in a way that it's impossible not to learn. He seems like he would give you the shirt off his back if he had the chance to.

He knows how you feel being broke or losing money and he doesn't want anybody to do that. He's not going to steer you in the wrong direction. He's definitely going to look out for your behalf.

You really have nothing to lose because he gives you a 30-day trial period. Even if you don't like it, the guy's going to give you your money back.

This is the way hedge fund managers trade. You know, you're getting a education from an experienced proven hedge fund trader that you're not going to get anywhere else in this world.

So if you don't learn anything else in life, do this. I'm just an average person. If I could do it, anyone can do it. It's not hard ... it's really not hard.

I now make my own financial future. I know what's going on in stock market. I can pick and choose whatever ETF is going to go up. I know what's going up. I know what's going down. If I choose to play today, I know how to make money.

I'm not dependent on anyone. Once you get that education and you start building up confidence, you're the master of the universe. I got the knowledge. I got the power.

I have much more ability and much more freedom to do what I want and when I want because I create my own paycheck. I got it down to a science that I could almost make money at free will.

My wife's very proud of me that I turned it around like this.

Kids are happy, wife's happy. I'm happy. I mean, I'm successful in that I've learned the course and I've learned what I'm doing.

- Barry C.

Do you know what "independence", true financial independence means for you?

Whether you can relate to Barry C....or you are just looking for room to breath...

Today, I want to offer you the same opportunity that Barry C. took advantage of. That allowed him to grab his own slice of the American Dream, and over come long odds.

I can't promise you the same results. But I can promise you the chance to learn the same powerful strategies that changed Barry's life.

Here's the deal...

You have the chance to receive the first four lessons of ETF Master—my course—absolutely free, with no obligation, just by entering your email address.

With these four free lessons, you will also receive full access to the ETF Master Trader member's only site, including the trading tools, and tutorials.

Plus two "take home" bonuses that are yours to keep—even after your 30 days of access to the members only site expires.

I hope that today will be the next step on your personal journey to financial independence. Get started today, building your financial independence.

Topic: Giving away first four lessons of ETF Master Trader
Subject Line: Is the American Dream Dead?
From Dylan Jovine

“Life should be better and richer and fuller for everyone, with opportunity for each according to ability or achievement regardless of social class or circumstances of birth.”

James Truslow Adams, defining the “American Dream”

Dear Tycoon Report reader,

I have to tell you my friend Teeka Tiwari, might just be the poster child for the American Dream. I'm sure you've heard his story.

Teeka came to America at 16 with only \$150 dollars in his pocket, and in his 30's became a millionaire hedge fund manager. It's the stuff dreams are made of, and Hollywood screenplays.

Yet, right now many are saying The American Dream is dead...

“My only fear in life, when it comes to money, is what's happening in the United States of America. The American dream is dead for the majority of America...”

Suze Orman, Author and CNBC Talk Show host

“The U.S. worked hard to create the American dream of opportunity. But today, that dream is a myth,”

Joseph Stiglitz, Noble prize winning economist

...But despite what they say...the American Dream isn't dead.

Through the years people like Teeka have proven through hard work, and the right knowledge it's alive and well.

While the last few years have certainly made things tougher on the American Dream...

ETF Master Trader members have proven—with what they've been able to accomplish with Teeka's teachings—that the American Dream is still possible...

“Those lessons have been life changing for me. They literally stopped a serious blood-letting that had been going on in my trading account.”

Tom C, Retired Tool and Dye Maker

"In the back of my mind, I knew I wanted to have a nest egg that I could rely on for my retirement but I was not reaching that goal with the approach I'd been using.

If I hadn't found the ETF Master Trader, I would still be searching for that special educational opportunity that I knew I needed to improve my investment positions..."

Mike C., System Support Engineer

"So life's been pretty good but now it's better, and I can see it's improving with investment knowledge and experience. And it's really rewarding, comforting, satisfying to know we're always financially secure because of the ability to invest wisely."

Tom D., Retired

No matter how far in a hole you find yourself financially, the American Dream is more attainable than you think.

Which brings me to the reason why I'm writing you today. Looking at our records, I noticed you haven't ventured past the Tycoon Report yet, and haven't had a chance to try any of our courses.

In honor of Independence Day weekend (and the American Dream) IFII wanted to give you an opportunity to get sample one of our very best course today.

Here's the deal...

Teeka Tiwari wants to give you the first four lessons of his wildly popular ETF Master Trader course absolutely FREE today.

Each week you'll receive a new lesson, giving you a full week to study the materials. You will also have 30 days to try out the trading research tools we have on the site, and join Teeka's weekly ETF Master Trader webinars.

Plus, when you get a chance, check out our great members area. We have a vibrant and active community of ETF Master Traders that will be a great resource for you over the next 30 days. They'll be your best bet to get your questions answered, and support any time of day. Ask them what they think about ETF Master Trader.

All you have to do today is enter your email on the following page...

[Click here to get your first ETF Master Trader lesson now.](#)

See you on the inside,

{Signature}

Dylan Jovine

P.S. I almost forgot to mention this. Teeka also runs a weekly webinar each week for ETF Master Trader members, that you will also be able to join for 30 days. On these live webinars Teeka will discuss ETFs, his strategy, sector rotation, and all of the other critical points in the materials you'll be learning.
